SUBJECT: Qualification by Extension, MIL-DTL-28748;  
FSC 5935; Preparing Activity: DLA-CC

Mr. Albert Mihelic  
Continental Connector Company  
53 La France Avenue  
Bloomfield, NJ 07003

Dear Mr. Mihelic:

This office received your email dated July 12, 2004, requesting Qualification by Extension for the multipiece jackscrew with designator "M" for /1, /2, /3, and /4, based on similarity to the /5 and /6. Qualification of the above referenced product is granted under the military specification listed below as a result of previous qualification testing in accordance with Military Specification MIL-DTL-28748. Jackscrew designator "M" will be added for the above referenced slash sheets as shown below on Qualified Products List (QPL) 28748. Due to revisions in the above referenced slash sheets, the part number sequencing will also be updated to include the shell hardware designator that signifies whether or not "long" type jackscrews are included with the part. In addition, a "0" has been added to the insert designator, which is used to indicate "no insert included". These part number sequencing changes will be reflected in the next scheduled revision of QPL-28748.
